# SCRIVENER 1983

The Scrivener — a year of memories living between a few short pages. Its purpose is to keep safe the scattered pictures of the days we'll leave behind.

Perhaps it captures only pieces of our past, but its design is to unlock a remembrance as the years of our lives move swiftly forward.

The book is to be skimmed today; the pictures are to be enjoyed and laughed at. However, the time to remember is not today, for now the past is linked too closely to the present. But when the mist of later years haze these days, the Scrivener will serve as a guiding light to bring back perhaps a smile, perhaps a tear, but always a memory.

Uniqueness "smile" Books boy friend  
your future.

*And the best is yet to come  
This is only the beginning  
Before the rising sun we fly  
So many roads to choose  
We start out walking  
and learn to run*

*And yet we've just begun.  
— Paul Williams*

*Afoot and lighthearted  
I take to the open  
road. Healthy, free,  
the world before me.  
The long path ahead  
leading wherever I
